Balanced review of the book - 8/10 for Interest 5/10 for Pragmatism

Where the book is strong

- It's a book full of accessible wisdom in layman's language, very readable
- It brings Christianity to "life"
- Rick Warren is clearly well-intentioned with the book and walks the talk in his life extensively
- Believers will find many ways to be closer to God in a "true Christian manner" and lots of Bible quotes/stories
- Giving you multiple perspectives to look outside yourself and find ways to become closer to God
- Practical lessons on what stops people finding their purpose/watch-outs and some useful self-evaluation tools.

Areas where it is weaker

- From our perspective the book does not provide a robust process to look at your life in detail, find points of flow and unconscious hints but to be fair, that's not the book's context
- However – given the book's title we feel this is a genuine hole in the text
- Only one chapter devoted to finding purpose per se – with one acronym "Shape" which we feel is light
- Can you find purpose without God? The answer is no – this may challenge many
- There's little science in the process of purpose here e.g. semiotics or psychology
- Practical lessons on what stops people finding their purpose/watch-outs and some useful self-evaluation tools
- What about those from other faiths?
